Attendance, In-class Participation	10	Weekly class attendance (150 minutes)		Oral (in class)
Group Work and Presentation	20	Analysis and 10 min. presentation of a leading company sustainability report		
Midterm Exam	30			Written
Final Exam	40			Written

Course Policies:

STUDENT DISABILITIES: Any student, who, because of a disabling condition, may require special arrangements in order to meet course requirements, should contact the instructor as soon as possible. Students should present the appropriate documentation from the university's Disability Support Office (Engelsiz ODTÜ Birimi, ODTÜ Kütüphanesi, Solmaz İzdemir Salonu, Tel: 210.7196; engelsiz@metu.edu.tr) verifying their disability, and outlining the special arrangements required. Please note that no accommodations will be provided to the disabled students prior to the completion of this approved University process.

ACADEMIC DISHONESTY: The Department of Business Administration has no tolerance for acts of academic dishonesty. Such acts damage the reputation of METU, the department and the BA/MBA/MS degree and demean the honest efforts of the majority of the students. The minimum penalty for an act of academic dishonesty will be a zero for that assignment or exam.

CHEATING: All university, faculty/institute, and department principles on academic honesty will be strictly enforced. The usual consequence for academic dishonesty is failure of the course and referral of the case to the Dean of the Faculty/Institute for additional disciplinary action. Examinations are individual and are to be completed without outside assistance of any sort. Persons observed cheating during examinations will receive a failing grade in the course. Homework assignments are individual, unless otherwise specified by the instructor, and are to be completed without outside assistance of any sort, as well. Persons observed cheating in their homework assignments will receive a score of zero for the portion of the semester grade that is allocated to such assignments.

PLAGIARISM: The instructor assumes that students will do their own work. By placing their names on assignments (individual or team), students are affirming that the contents are their original work. Any previous work available from files or past students, as well as materials available on the internet may be used only as a suggestive model. Violation of this provision will be considered as unethical behavior, subject to disciplinary action. If you have any doubt about the use of a specific material, see the instructor ahead of time. Any material used from outside sources should be referenced appropriately.

METU HONOR CODE

Every member of METU community adopts the following honor code as one of the core principles of academic life and strives to develop an academic environment where continuous adherence to this code is promoted.

"The members of the METU community are reliable, responsible and honorable people who embrace only the success and recognition they deserve, and act with integrity in their use, evaluation and presentation of facts, data and documents."

KNOW YOUR RIGHTS AND RESPONSIBILITIES! <http://oidb.metu.edu.tr/en/academic-rules-and-regulations>

NOTE THE IMPORTANT DATES ON THE ACADEMIC CALENDAR! <http://oidb.metu.edu.tr/en/academic-calendar>

The following table gives the tentative schedule for the semester. The lectures will stress the most important and/or most difficult material. Appendices are required only if they are assigned. The students are required to read the chapters and appendices before they are covered in class.

		What can we do?		1, 2, 3, 4, 10, 12, 14
	9 - 21	FINAL EXAM WEEK		5, 7, 9, 13, 15, 16, 17

Homework Assignments:

Reference documents or recent reports related to the topics covered in the courses will be shared and students will be expected to prepare a summary of these documents. Students who will be selected randomly are expected to share their summaries with the class. It is planned that all students will share their summaries during the term.

Group Work:

Sustainability reports are increasingly used by companies to communicate with investors, employees, consumers and the general public on their environmental and social initiatives. Sustainability reports can be confusing to readers, in parts to their length and the volume and variety of information included, and in part because it is often difficult to distinguish the information they contain that is valuable from what is not.

Group work is intended to help students to identify the most valuable part of sustainability reports and also to deepen their understanding of creating business value with non-financial elements through these reports.

Groups of students are expected to examine a given sustainability report of a leading company and its main competitor's side by side. The groups will focus in-depth on the value creating part of the company's sustainability strategy and explore the underlying processes companies are adopting to address key sustainability issues. The groups will prepare a presentation covering all the outputs of the study.

Group Presentation:

Towards the end of the semester, the groups will make 15-minute long presentations and share the results of their work with the class. Since the grading of the presentation will be at an individual level, each member of the group is expected to participate in the presentation.

Attendance

Class participation is necessary and beneficial for your success in the course. It will also count towards your grade.

To be able to create a better online learning environment please plan to sign in 2-5 minutes before the class begins and be present throughout the class time. In addition, starting on time not only shows respect for your classmates and faculty, but it also frees up more time to ask questions or to discuss current sustainability topics.
