Course Description:	
<p>Students today need courses and programs that will establish a fundamental framework to understand the process of entrepreneurship, the new but established trend in the free economies of the world. Successful entrepreneurs need more than just luck and money to survive in the very competitive business environment: They must also have the qualities of creativity, thorough planning, and risk taking. This course aims to provide the graduating students, i.e. potential <i>entrepreneurs</i>, with the basics they need in order to set up their own businesses, or alternatively become <i>intrapreneurs</i>, organizational entrepreneurs within their own organizational framework. The course content includes introductory information into the concept of entrepreneurship:</p> <ul style="list-style-type: none"> ▪ entrepreneurial perspectives ▪ developing the entrepreneurial plan ▪ marketing research ▪ financial preparation ▪ developing an effective business plan ▪ assessment and evaluation of entrepreneurial opportunities ▪ Turkish legal requirements ▪ sources of capital ▪ managing entrepreneurial growth ▪ valuation of business ventures ▪ intrapreneurship 	
Course Student Learning Objectives: (CSLOs)	
<p>Students who succeed in this course will be able to:</p> <ol style="list-style-type: none"> 1. Understand and talk about the history, major philosophies, concepts and applications of entrepreneurship, 2. Analyze entrepreneurial problems, and support personal views in both spoken and written form, 3. Develop critical thinking related to a variety of entrepreneurial concepts and issues, 4. Enhance entrepreneurial understanding through in-depth case studies, 5. Come up with a number of potential entrepreneurial ideas, 6. Apply learned and self-developed principles (with an eye towards applicability) by assessing cases/projects, 7. Project entrepreneurial thinking towards applicability through a team business plan, 8. Develop a variety of skills in communication, finance, production management, human resource management, marketing and other necessary fields in business administration, 9. Develop team-work through a project, 10. Sharpen up presentation skills by presenting the entrepreneurial business plan to an audience of "potential investors" (actually, their peers). 	
Course Content:	
<p>We have designed Fundamentals of Entrepreneurship as a course that aims to establish or improve students' thinking, understanding and application regarding entrepreneurship, and to put their ideas to</p>	

work through case studies, and later, into projects expressed in the form of business plans. The final stage will be opening up the project (business plan) to an audience of "potential investors" (their peers).

Course Policies:

STUDENT DISABILITIES: Any student, who, because of a disabling condition, may require special arrangements in order to meet course requirements, should contact the instructor as soon as possible.

Students should present the appropriate documentation from the university's Disability Support Office (Engelsiz ODTÜ Birimi, ODTÜ Kütüphanesi, Solmaz İzdemir Salonu, Tel: 210.7196; engelsiz@metu.edu.tr) verifying their disability, and outlining the special arrangements required. Please note that no accommodations will be provided to the disabled students prior to the completion of this approved University process.

ACADEMIC DISHONESTY: The Department of Business Administration has no tolerance for acts of academic dishonesty. Such acts damage the reputation of METU, the department and the BA/MBA/MS degree and demean the honest efforts of the majority of the students. The minimum penalty for an act of academic dishonesty will be a zero for that assignment or exam.

CHEATING: All university, faculty/institute, and department principles on academic honesty will be strictly enforced. The usual consequence for academic dishonesty is failure in the course and referral of the case to the Dean of the Faculty/Institute for additional disciplinary action. Examinations are individual and are to be completed without outside assistance of any sort. Persons observed cheating during examinations will receive a failing grade in the course. Homework assignments are individual, unless otherwise specified by the instructor, and are to be completed without outside assistance of any sort. Persons observed to have cheated in their homework assignments will receive a score of zero for the portion of the semester grade that is allocated to such assignments.

PLAGIARISM: The instructor assumes that students will do their own work. By placing their names on assignments (individual or team), students are affirming that the contents are their original work. Any previous work available from files or past students, as well as materials available on the internet may be used only as a suggestive model. Violation of this provision will be considered as unethical behavior, subject to disciplinary action. If you have any doubt about the use of a specific material, see the instructor ahead of time. Any material used from outside sources must be referenced appropriately.

METU HONOR CODE

Every member of METU community adopts the following honor code as one of the core principles of academic life and strives to develop an academic environment where continuous adherence to this code is promoted.

"The members of the METU community are reliable, responsible and honorable people who embrace only the success and recognition that they deserve, and act with integrity in their use, evaluation and presentation of facts, data and documents."

CIVILITY IN THE CLASSROOM: Students are expected to assist in maintaining a classroom environment that is conducive to learning. In order to assure that all students have an opportunity to gain from time spent in class, unless otherwise approved by the instructor, students are prohibited from using laptop computers

and cellular phones, making offensive remarks, reading newspapers, sleeping, or engaging in any other form of distraction. Inappropriate behavior in classroom shall result, minimally, in a request to leave class.

Past observations have shown that the METU classroom experience is improved when the following are true:

Students arrive on time. Timely arrival ensures that classes are able to start and finish at the scheduled times. Timely arrival shows respect for both fellow students and faculty and it helps to create a better learning environment by reducing avoidable distractions.

Students are fully prepared for each class session. Much of the learning in this course takes place during classroom discussions. When students are not prepared, they cannot contribute to the learning process. This affects not only the individual but also the classmates who count on them.

Students respect the views and opinions of their colleagues. Disagreement and debate are encouraged; however, intolerance for the views of others is unacceptable. Laptops, phones and wireless devices are turned off.

STUDENT EXCUSES: In case you cannot attend one of the examinations, **if and only if** you can present an official (dean's or president's office approved) excuse or METU Medical Center certified Health Report, you will be eligible to take a make-up examination. There will be one single, comprehensive and essay type make-up examination during the final period and it will be counted towards whichever exam(s) you are missing.
